

STUDENT SUCCESS CENTER

An EEO Institution

THINKING ABOUT GOING TO COLLEGE???

You may need to take the **Texas Success Initiative (TSI) assessment**. Don't worry, though! San Jacinto College's Student Success Center can help!

What is the **TSI assessment**?

The TSI assessment is a test you take to determine your readiness for college-level course work in mathematics, reading, and writing. Successfully passing the assessment in these areas ensures that you meet the prerequisites necessary to take credit courses and be successful*. Once you pass the assessment, you are good to go! Even if you are not successful in your TSI test you can still take college preparatory courses without passing the assessment that will help you to get ready for college-level course work.

*You may be exempt from the assessment. There are some exemptions based on SAT and ACT scores, as well as veteran status. You can find the exemptions by searching online for: Texas Education Agency TSIA Exemptions.

Not exempt? What to do now?

Attend a **FREE TSIA prep session** at San Jacinto College. These sessions are designed to review the material covered on the exam and help set you up for success!

You **do not** need to be a student at SJC to attend! These sessions are open to the public.
